EDUCATION

Adekunle Ajasin University, B.Sc Computer Science [Aug. 2021 - Aug. 2025]

SKILLS/TECHNOLOGIES

- **Proficient:** JavaScript, Typescript, Python, NodeJs, ReactJS, MongoDB, PostgreSQL, scikit-learn, Pandas, Numpy, Flask
- **Familiar:** Java, Python, C++, Angular, Langchain, TensorFlow
- **Certifications & Awards:** Student Developer of the year - 2023

WORK EXPERIENCE

Intern

Data Science Nigeria

[May 2024 - Oct. 2024] Lagos, Nigeria.

- Collaborated with a team of three to build a chatbot framework using React, Python, and Langchain, achieving up to **25% reduction** in operational costs.
- Collaborated with a team that developed a chatbot product for government officials, facilitating streamlined communication regarding local data using the chatbot framework.
- Contributed to data collection, annotation, and cleaning for an African Indigenous LLM project, significantly improving the quality of the model's dataset.
- Gained expertise in machine learning model building using Scikit-learn and TensorFlow.
- Utilized the following technologies: JavaScript, Python, Langchain, ReactJS, PostgreSQL, NLP.

FrontEnd Developer

Onract Limited

[May 2023 - July 2023] Remote, Nigeria.

- Developed interactive UIs using React, Typescript, and Redux, enhancing user experience
- Implemented pixel-perfect UI components with Material-UI and Styled-Components.
- Automated end-to-end testing using Cypress.js, improving software quality and reducing bugs.
- Utilized the following technologies: JavaScript, Typescript, MaterialUI, CypressJS, Storybook

PROJECTS

PDF Assistant

- Created a Retrieval-Augmented Generation (RAG) system, reducing search time in PDF's by 5 minutes using Gemini API and Pinecone database.
- Full-stack development with React.js, Flask, and vector databases for faster document parsing..
- Utilized the following technologies: JavaScript,Typescript, Python, Flask, Pinecone (Vector database)

Neobot (AI Chatbot)

- Worked in a team of 3 to design and deploy an AI chatbot for over 24,000 users, utilizing Node.js, Express.js, and Typescript..
- Integrated Open AI and Pi API's, enabling advanced conversational features.
- Recognized in winners' honorable mentions, highlighting great potential and inspiration in the 2023 PI hackathon.
- Utilized the following technologies: JavaScript, Typescript, NOdeJS, ExpressJS

Great Nigerian Student (GNS)

- Developed a social media app for students with React Native and Node.js, managing 1,000+ user interactions for networking and opportuniti
- Utilized the following technologies: JavaScript, NodeJs, React-Native, MongoDB.

VOLUNTEERING ACTIVITIES AND EXTRACURRICULARS

Club Lead

Google Developer Student Club, AAUA

[July 2023 - Aug. 2024]

- Led a project-based learning initiative, culminating in successful completion of a solution challenge.
- Organized workshops and mentorship programs to foster community growth.
- Invited industry professionals for talks, providing real-world insights to club members.
- Cultivated a supportive community for knowledge sharing and collaborative project works.
